Side-seated Multi Directional Reach Truck — MQZ25/30

MQZ series is a side-seated full-forward lift truck with a maximum load capacity of 3 tons and three independent steering wheels. It can go straight, side, oblique, right angle turn and turn in place, and the body adopts a large arc narrowing design. Smaller turning radius and smaller turning radius in place. A variety of driving modes can be continuously switched without stopping, driving freely and smoothly. Full proportional electromagnetic valve load sensitive, multi-group hydraulic action linkage, low speed, conventional and high speed 3 speed modes can be selected.

- Multi-directional driving mode, travel straight, side, oblique, right angle turn and in place rotation
- Smaller turning radius and smaller turning radius in place
- All-wheel pure electric independent steering
- Multi-functional forklift truck: ordinary pallet materials + long materials

Maximum lifting height(mm)	8500	8500
Load center distance(mm)	600	600
Mast retracted height(mm)	3803	3803
Wheel number, front/rear (x= drive wheels)	2/1X	2/1X
Outside distance of fork(mm)	400-840	400-840
Voltage/rated capacity(V/Ah)	48/700	48/700
Driving mode	Seated	Seated
Travel speed, laden/unladen(km/h)	8.0/10.0	8.0/10.0

More Narrow Stacking Aisle for Long Material Handling Freedom and Flexibility

- Minimum rotating radius 1266mm
- Full proportional electromagnetic valve load sensitive. multiple groups of hydraulic action linkage
- Continuous mode switching function
- All-wheel electromagnetic braking, driving more assured
